“Merit Homes can custom design your home to suit all your needs”

Merit Homes is a family owned and run business. We have been building award winning homes throughout Sydney since 1995. Our wealth of knowledge is transformed into every home we design and build. We pride ourselves in our work.

“The *eLLY*” is a multi award winning home with full brick construction to the ground floor with a suspended concrete slab and brick veneer construction to the first floor. The design holds a 6.5 star rating whilst maintaining an open floor plan. Our attention to detail, creativity and use of natural light with a focus of bringing the indoors out and the outdoors in, provides an outstanding home in both workmanship and function.
